# Victoria's road safety performance

An aerial, black and white photograph of a city street scene. A multi-lane highway with a curved interchange is the central focus. The surrounding area is densely packed with residential and commercial buildings, trees, and parking lots. A large sign for 'Masters' is visible on a building near the highway. The text is overlaid in a large, white, sans-serif font across the upper half of the image.

**“Death and injury are built into our roads and our cars, because – historically - we designed them without taking into account human failure.”**

An aerial, black and white photograph of a multi-lane highway. The road curves from the bottom left towards the top right. Numerous cars are visible on the road, appearing as small dark shapes. The surrounding area includes some trees and what appears to be a parking lot or service area on the left side. The overall tone is somber and serious.

**“We want to see a future  
where no-one is killed or  
seriously injured on our  
roads.”**

TOWARDS ZERO

The image features the text "TOWARDS ZERO" centered on a black background. The word "TOWARDS" is in white, uppercase, sans-serif font. To its right is a blue circular graphic composed of two thick, curved segments separated by a vertical gap. Inside this blue circle, the word "ZERO" is written in white, uppercase, sans-serif font.

**SAFER PEOPLE**

A young boy with dark hair is sitting on a swing. He is wearing a grey and red long-sleeved shirt. The swing has a large, dark grey, padded backrest. The background is dark, and the lighting is focused on the boy, creating a somber or reflective mood. The text is overlaid on the lower half of the image.

**“... illustrating the power of parental role modelling.”**

**“Until now there has been no offence for combined drink and drug-driving.”**

**“... removed a long-standing  
loophole to make the Victorian  
demerit point system fairer,  
and our roads safer.”**

# SAFER VEHICLES

# SAFER ROADS

An aerial, black and white photograph of a city at dusk or dawn. The foreground is dominated by a large, multi-level highway interchange with several lanes of traffic. In the middle ground, there are several tall, modern skyscrapers, some of which are illuminated. The background shows a dense urban area with many smaller buildings, some of which are also lit up. The sky is dark with some light clouds, and the overall atmosphere is one of a bustling city at the end of the day.

**“A cornerstone of Victoria’s road safety strategy is an unprecedented investment by the Transport Accident Commission in safer roads and roadsides.”**

**“... serious trauma is reduced by up to 85 per cent on roads treated with wire-rope barrier.”**

# Princes Hwy East

# Major metropolitan roads projects
