

## Panel Discussion

# Incentivisation of Low Emission Vehicles

4:00pm-5:00pm, Wednesday 3rd March 2021

Registration via TryBooking:  
<https://www.trybooking.com/BOPQB>

This webinar provides a panel discussion with industry professionals, discussing the topic of Electric Vehicles (EVs) and the government's role in providing incentives to accelerate the uptake of low emission vehicles. The session will be moderated by Laura Aston (Monash University).

### Steve Connors

*Principal Advisor, Infrastructure Victoria*

Steve Connors is a Project Director at Infrastructure Victoria. With over a decade of public and private sector experience, Steve joined Infrastructure Victoria in early 2018 as the lead author of Infrastructure Victoria's advice on the state's infrastructure needs for introducing automated and zero emissions vehicles. Steve is currently Infrastructure Victoria's subject matter lead on zero emissions vehicles uptake as part of Infrastructure Victoria's work on updating the 30-year Infrastructure Strategy for Victoria.

### Angé Anczewska

*General Manager, International Association of Public Transport (UITP)*

Following the completion of a Doctor of Jurisprudence (J.D.) degree in USA, Angé migrated to Australia and began work with a harm-prevention charity focussed on level crossing safety and trauma prevention. Angé is currently using her talents to develop capacity and increase cross-jurisdictional engagement in the ANZ public transport industry as the General Manager for the International Association of Public Transport (UITP) Australia New Zealand.

### Dr Alina Dini

*Founder and CEO, Whirl*

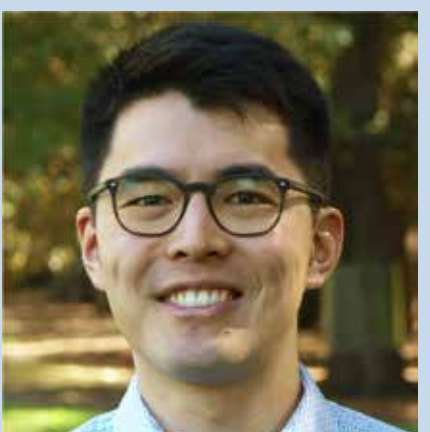

Dr Alina Dini is captivated by renewable energy innovation and how it can build long term financial and climate resilience. As Founder and CEO of Whirl, a peer-based digital marketplace re-imagining the shopping experience for energy technologies like electric cars, Alina brings a human element into technology topics and works with everyday people, businesses, and communities to help them harness energy innovations.

### Tim Washington

*Co-founder, JET Charge*

Tim Washington is the co-founder of JET Charge, Australia's largest EV charging infrastructure business and Chargefox, Australia's largest EV Charging network. Tim is Chair of the Electric Vehicle Council, the peak body for the electric vehicle industry in Australia

### Michael Li

*Senior Project Manager, ClimateWorks Australia*

Michael manages projects with a focus on reducing carbon emissions from cities, encompassing buildings, infrastructure, transport and energy sectors. Michael has strong stakeholder engagement and communication skills with a proven track record in translating research into sustainability advice for business and government.

### Adrian Dwyer

*CEO, Infrastructure Partnerships Australia*

Adrian Dwyer is the Chief Executive Officer of Infrastructure Partnerships Australia – the nation's leading public and private sector infrastructure think tank. Adrian's career spans business, policy and public service roles across the private sector and the NSW and Australian governments – with expertise across transport, utilities and social infrastructure markets, and wider public administration.
