Subject: New Charters for Institute of Traffic Engineers Sections

Date: June 1, 1972

Ref. or Job No. ?

Attached herewith is a draft of the proposed model charters to be issued to sections under the terms of the new constitution which becomes effective January 1, 1973. Could you please review this charter and respond to Mr. William R. McGrath, Administrative Vice President, indicating generally whether or not the Australian section could live within such a charter. There have already been certain modifications made on the basis of the requests from the Canadian section.

I am rather disappointed at progress to date on formulation of the Australian section. I know that you and everyone else involved are very busy but could you give me an idea of where you stand.

When are the plans to have a section meeting during the Australian Road Research meeting in Canberra. Perhaps I can make arrangements to be there.

Best regards,

Laurence A. Dondanville
