NOTICE OF MEETING

Second Annual General Meeting

To be held on:
Tuesday, 21st August, 1973 at 6:30 p.m.
at:
Unisearch House, University of New South Wales
in conjunction with dinner.

The Australian Section is cooperating with the Transportation Branch of Sydney Division of the Institution of Engineers, Australia to host a Symposium:-

"ARE URBAN FREEWAYS REALLY NECESSARY?"

in conjunction with our Annual General Meeting.

It may (or may not) be significant that this date coincides with the Forty Third Annual Meeting of the Institute of Traffic Engineers in Minneapolis, Minnesota (August 19-24, 1973)

In case you haven't got the details a copy of the Symposium material is enclosed together with a registration form. Registration prior to Friday, August 10th is advised if you wish to receive copies of the preprints prior to the Symposium.

Investigations by the Executive Board into the possibility of air-mail or air-freight forwarding of "Traffic Engineering" have not proved successful. The P.M.G. regulations will not allow the magazine to be classified as a periodical for purposes of bulk mailing rates.

Ken Furness of the United Kingdom and Eire Section has been appointed Interim Director of District 8. I am sure we all wish him well.

A Newsletter will be issued in September.
